MICROLEARNING MODULE

Name: _____ Grade & Sec: _____ Score: _____

Subject: Mathematics Quarter: 1 MLM No. 10

Teacher: _____

Competency: Compare numbers up to 1 000 000 using =, < and >

A. Look Back!

Write the place value and value of the underlined digit in each number.

	Place Value	Value
1. 2 <u>3</u> 1 384		
2. 159 63 <u>1</u>		
3. <u>4</u> 64 965		
4. 89 <u>7</u> 438		
5. 764 <u>8</u> 92		

B. What's New?

Today, you are going to learn about comparing numbers up to 1 000 000 using relation symbols >, <, and =.

Read the problem below.

	<p style="text-align: center;">Tilapia Harvest</p> <p>Mang Tony is a fisherman. Yesterday, he harvested 17 845 kilograms of Tilapia, and today he harvested 17 546 kilograms of Tilapia. Which day did he harvest more?</p>
---	--

Source: <https://www.shutterstock.com/imagephoto/fresh-nile-tilapia-fish-basket-1154654683>

Questions:

1. How many kilograms of Tilapia were harvested yesterday?
2. How many kilograms of Tilapia are harvested today?
3. What is asked in the problem?
4. When did he harvest less?
5. How will you find the answer to the problem?

6. What kind of person is Mang Tony?

C. What Is It?

We compare numbers to determine which number is greater, less, or equal using relation symbols, such as greater than ($>$), less than ($<$), and equal to ($=$).

How do we determine which number is greater than, less than, or equal to? Follow the steps below to find out.

STEPS IN COMPARING TWO NUMBERS

1. Align the digits with the same place value.

Example: 172 546 and 172 845

$$\begin{array}{r} 172\ 546 \\ 172\ 845 \end{array} \quad \left. \vphantom{\begin{array}{r} 172\ 546 \\ 172\ 845 \end{array}} \right\} \text{align}$$

2. Compare the digits in each place value starting from the left. The first pair of digits with different values will determine which number is greater or less.

STEP 1	STEP 2	STEP 3	STEP 4
Compare the digits in the hundred thousands place. $\left. \begin{array}{r} 172\ 546 \\ 172\ 845 \end{array} \right\}$ The same digits are in the hundred thousands place.	Compare the digits in the ten thousands place. $172\ 546$ $172\ 845$ The same digits are in the ten thousands place.	Compare the thousands place. $172\ 546$ $172\ 845$ The same digits are in the thousands place.	Compare the digits in the hundreds place. $17\ 546$ $17\ 845$ Since $8 > 5$, therefore $172\ 845 > 172\ 545$

Below are important terminologies, notations, and symbols that you must learn and remember about comparing numbers using relational symbols.

The symbol $>$ is read as “is greater than” and is used when the number on the left is larger than the digit on the right.

Examples: a. $24\ 354 > 24\ 205$
b. $174\ 385 > 171\ 493$

The symbol $<$ is read as “is less than” and is used when the number on the left is less than the number on the right.

Examples: a) $79\,674 < 79\,789$

b) $124\,583 < 130\,002$

The symbol $=$ is read as “is equal to” or “equals” and is used when the number on the left is of the same value as the number on the right.

Examples a) $4\,273 = 4\,000 + 200 + 70 + 3$

b) $25\,650 = 20\,000 + 5\,000 + 600 + 50$

D. Let's try!

Activity 1.

Write $>$, $<$, or $=$ on the blank between the numbers to make each mathematical statement true.

a. $19\,502$ ____ $18\,409$

b. $410\,200$ ____ $410\,500$

c. $361\,050$ ____ $369\,007$

d. $821\,305$ ____ $811\,425$

e. $512\,125$ ____ $512\,550$

Activity 2.

Read each question carefully, and encircle the letter of the correct answer.

1. Which is the least number?

- a. 44 962 b. 44 692 c. 44 629 d. 44 206

2. Which number is equal to $20\,000 + 1\,000 + 200 + 80 + 7$?

- a. 21 394 b. 21 287 c. 21 380 d. 21 278

3. Which number is the greatest?

- a. 46 408 b. 46 225 c. 46 842 d. 46 482

4. Which number is less than 23 475?

- a. 23 547 b. 23 775 c. 23 457 d. 23 757

5. Which number is equal to four hundred eighty-one thousand, nine hundred sixty-two?

- a. 481 962 b. 481 900 c. 481 992 d. 480 962

E. Let's Evaluate

Write >, < or = in the box.

1. 56 132 56 123

2. 34 567 30 000 + 4 000 + 500 + 60 + 7

3. 7 023 7 921

4. 189 930 100 000 + 80 000 + 9 000 + 800 + 30 + 0

5. 120 849 121 849

6. 13 485 15 684

7. 21 856 11 426

8. 10 168 10 148

9. 42 384 42 384

10. 21 423 21 415

Challenge!

Read the numbers from top to bottom in each column (↓) and from left to right (→) in each row. Then rearrange the digits to form the greatest or the least possible number in the row or column.

	A	B	C	D	E	F
G	2	3	5	9	6	4
H	7	8	4	3	2	1
I	9	3	2	6	5	4
J	8	0	0	4	6	3
K	4	3	5	8	9	6
L	9	0	7	8	2	1

Greatest **Least**

A. _____ B. _____

C. _____ D. _____

E. _____ F. _____

G. _____ H. _____

I. _____ J. _____

K. _____ L. _____

F. References
